

# Peerless Canna

Nature Perfected It. Our Products Deliver It.™

Peerless Canna's products "Feel Better"

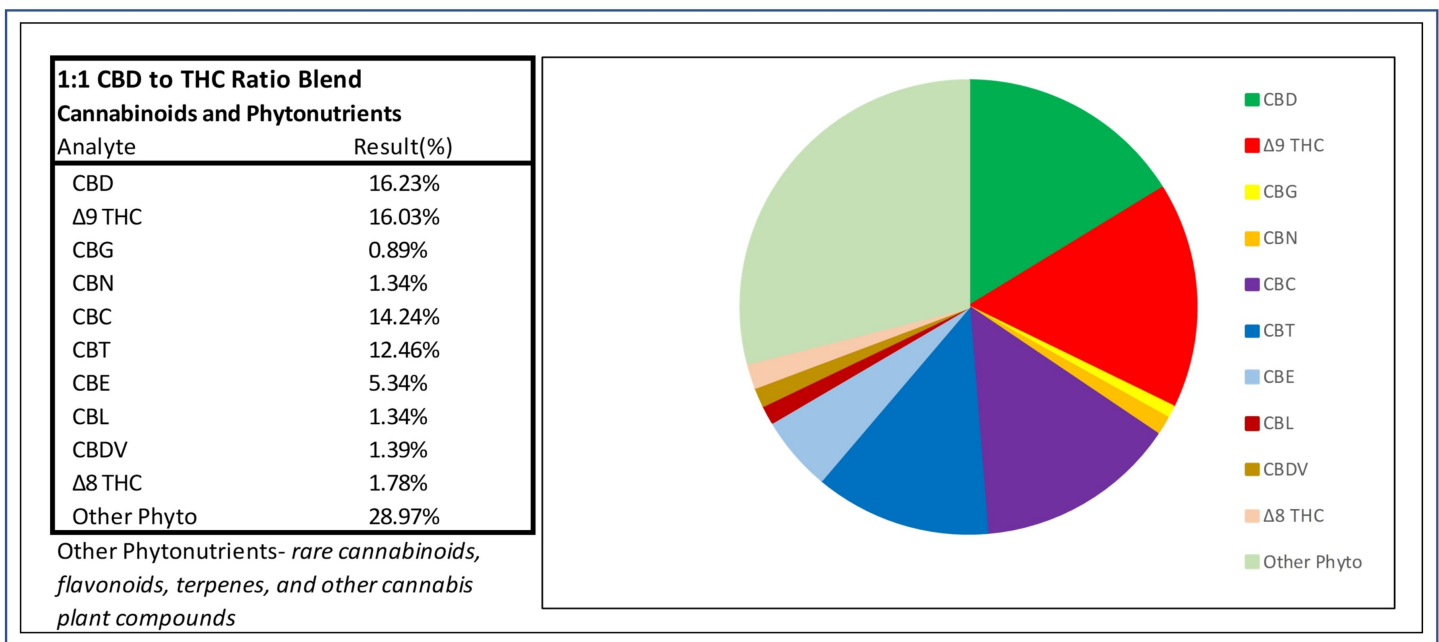

Peerless Canna's premium products contain up to **5X** more active cannabinoids than our competitors, including **NATURALLY OCCURRING** hemp derived **THC, CBD, CBG, CBN, CBC, CBDV, CBT, CBE, CBL, and other rare cannabinoids**, along with naturally occurring terpenes, flavonoids and other cannabis phytonutrients, all of which work synergistically with heightened therapeutic potential compared to synthetic or isolated compounds.

The **RATIO'S** of CBD to high concentrations of other natural cannabinoids and other phytonutrients amplify the overall effectiveness and by varying relative cannabinoid ratios, the interplay between these molecules from the plant and the endocannabinoid system determines the ultimate therapeutic response and associated effects.

CBD, CBC, and CBT essentially lighten the potentially overstimulating effects of THC. THC, CBC, and CBT essentially amplify the overall therapeutic effect of CBD.

The following are examples of typical batches. Actual results will vary, but Peerless can precisely reproduce various CBD to THC ratios and the minor cannabinoids and other phytonutrients come along for the ride.

## CBD:THC Ratio Blends

**These products were produced from USDA legal hemp and are work in process materials used to produce finished goods containing less than 0.3% total THC. These products are only available to licensed hemp processors.**

## CBD:THC Ratio Blends

### 2:1 CBD to THC Ratio Blend

#### Cannabinoids and Phytonutrients

Analyte	Result(%)
CBD	27.39%
Δ9 THC	13.87%
CBG	0.77%
CBN	1.16%
CBC	12.32%
CBT	10.78%
CBE	4.62%
CBL	1.16%
CBDV	1.27%
Δ8 THC	1.54%
Other Phyto	25.13%

Other Phytonutrients- *rare cannabinoids, flavonoids, terpenes, and other cannabis plant compounds*

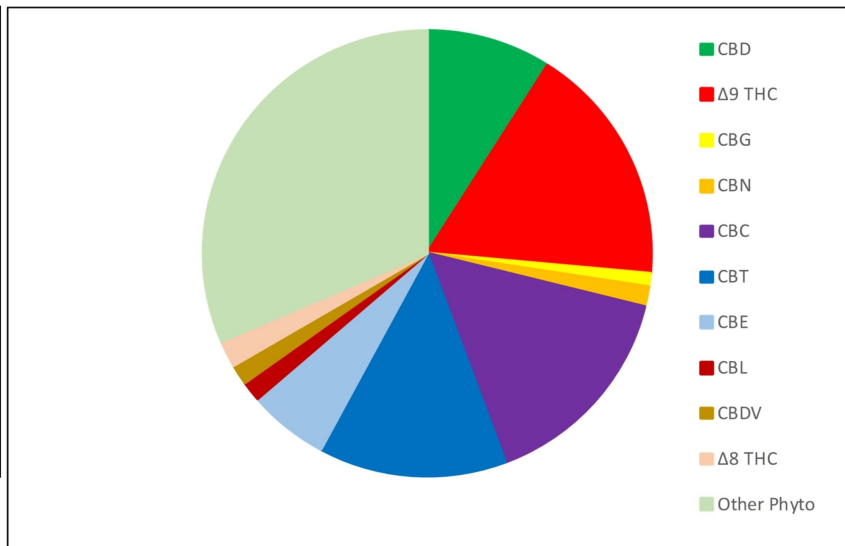

### 1:2 CBD to THC Ratio Blend

#### Cannabinoids and Phytonutrients

Analyte	Result(%)
CBD	9.02%
Δ9 THC	17.42%
CBG	0.97%
CBN	1.45%
CBC	15.48%
CBT	13.55%
CBE	5.81%
CBL	1.45%
CBDV	1.47%
Δ8 THC	1.94%
Other Phyto	31.46%

Other Phytonutrients- *rare cannabinoids, flavonoids, terpenes, and other cannabis plant compounds*

Other Ratio Blends available. Custom made to order.

Available as Oil, Nano Emulsion, or Water Soluble Powder

## CBD:Minors Ratio Blends

### 6:1 Broad Spectrum Oil

#### Cannabinoids and Phytonutrients

Analyte	Result(%)
CBD	75.00%
Δ9 THC	0.01%
CBG	1.50%
CBN	1.50%
CBC	1.00%
CBT	5.00%
CBE	2.00%
CBL	0.50%
CBDV	1.00%
Δ8 THC	0.01%
Other Phyto	12.49%

Other Phytonutrients- *rare cannabinoids, flavonoids, terpenes, and other cannabis plant compounds*

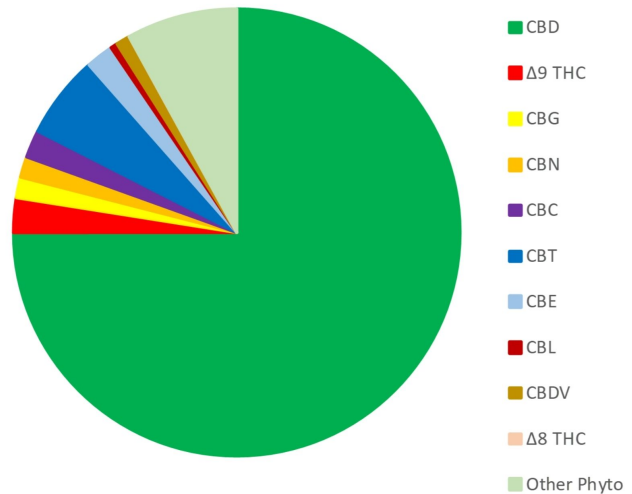

### 6:1 Full Spectrum Oil

#### Cannabinoids and Phytonutrients

Analyte	Result(%)
CBD	75.00%
Δ9 THC	2.50%
CBG	1.50%
CBN	1.50%
CBC	2.00%
CBT	6.00%
CBE	2.00%
CBL	0.50%
CBDV	1.00%
Δ8 THC	0.01%
Other Phyto	8.00%

Other Phytonutrients- *rare cannabinoids, flavonoids, terpenes, and other cannabis plant compounds*

Other Ratio Blends available. Custom made to order.

Available as Oil, Nano Emulsion, or Water Soluble Powder
